### Continuous Professional Development (CPD) for English Teachers

Since 2003, we have provided a wide variety of Teacher Training TESOL methodology courses for Kindergarten, Primary and Secondary teachers. These courses can be taught in your school or in our training facility, and your training costs may even be subsidised by the DSEDJ.

Course topics include phonology, classroom management, materials design, approaches and methods in language teaching, play-based learning, teaching English through drama and teaching English language systems. Each course comprises practical, hands-on workshops that equip teachers with the knowledge and skills to reflect upon and improve their teaching.

### One-stop Solution

Our service includes international teacher recruitment, work visa, onsite training and regular classroom observation to ensure the quality of lesson delivery.

Our team of local administrative staff provide liaison services and support as well as regular communication between our teachers and school customers.
