

## 2021 TESOL Training Courses for Local Kindergarten Teachers

In this practical 10-hour course we defined the stages of young learner literacy development and explored synthetic phonics as an effective method to support reading and spelling skills progress. Participants were presented with a wide range of strategies, activities and decodable readers to use in their classrooms. The course had a strong focus on the staging and scaffolding of lessons, with participants having the opportunity to plan and adapt materials suitable for their learners.

*\*Local teachers can attend this course by applying via the DSEDJ (Course Reference Code FD21-0660).*
